There is not much to see in the square itself, except that it's the largest inner city square in the whole world. Several significant historic events occurred here, the most important of which was that it was here that Chairman Mao proudly announced the founding of

the People's Republic of China. Following your guide, you will learn about the other historical events that happened here.

10:30 - 13:00: The **Forbidden City** borders Tiananmen Square, and is the highlight of your day tour. It served as the home for Imperial Families for over 500 years and has survived both natural and manmade disasters. Being the largest and the best preserved palace compound in the world, it has symbolized the Imperial Power, simply because common people are prohibited access. Now, it's a cultural symbol revealing old stories.

13:00 - 14:00: Enjoy a local Beijing lunch at your own expense.

14:20 - 15:00 p.m: Filled with energy, you set out for **Jingshan Park** which is also one of the Imperial Parks of old times. Nowadays, it's just a place where local people enjoy their leisure time. The park presents a commanding view of the whole Forbidden City and if you are lucky to be visiting on an autumn day, the red maple forest presents a splendid scene fit for royalty.

15:30 - 17:00: Stroll in the old **Beijing Hutongs** where old Beijingers live. A few decades ago, almost all people in Beijing lived in Siheyuan in Hutongs. There may be a couple of families in one yard who have been living together for a long time and they know each other well. You can imagine the hustle and bustle of old times. Nowadays, there are still some people living there, but most Hutongs are vacant. wood with no nails, which is a unique architectural achievement originating from China.

Comprised of two parts, a rectangular foundation and a semi-circular top, the Temple represents the typical Chinese concept of a circular heaven and rectangular ground. Nowadays, the grounds are a public park where you can see local people doing their morning exercise.

11:00 - 15:30: Next, your guide and driver will take you to a private Siheyuan to join a **Cooking**

Class. The cooking class is divided into three parts. In the beginning, you will visit a local market. It used to be a state-owned grain shop where all the staff and managers are Beijingers. Different from the bustling noisy markets, this place is very tranquil and clean. We will introduce all kinds of daily necessities like staples, flours, edible oils, vegetables

condiments, meats, herbs, etc. to you. Through this short trip, you will know about the real life of a common Beijinger. After visiting the market and get acquainted with all the ingredients, you will come back to the Siheyuan and start to cook. Each cooking class will teach you 5 traditional dishes including dumplings. You will learn the cooking skills from a professional chef that comes from famous 5-star hotels. He will introduce various culinary culture and customs in different areas of the country, explain seasonings and condiments that you will use, and share some interesting personal stories. Each and every one will be able to participate and practice. The chef will also show you his impressive cutting skills. There will be a guide with you to help you with any communication barriers. After the cooking experience, your chef will do the frying or add some final touches to the dishes you prepared. Then, lunch shall be served. You will enjoy a tasty and nutritious meal that includes meat, vegetables, cold dishes and warm dishes in different flavors. After the meal, you will receive a special gift.

16:20: Your guide will take you to **Chaoyang Theater** to enjoy the world-famous Acrobatic Show. Acrobatics is a traditional Chinese performance, and a huge challenge for the acrobats' body. Acrobatics has a history of over 2500 years beginning in the Western Han Dynasty (202 B.C. - 9 A.D.). It is said that Emperor Wu of the Western Dynasty

was particularly fond of watching acrobatics. He entertained his foreign diplomats with an acrobatics show in his palace. Beijing is one of the places acrobatics is originated from. In old Beijing, Tian Qiao has been a long-standing spot for acrobats to perform. After the establishment of the new China, the team that had traditionally performed there began performing overseas, representing the Chinese acrobatics culture. After such a long development, Tianqiao acrobatics has evolved to meet the modern aesthetic concept. In addition to the traditional Lion Dance, oral stunts, pagoda of bowls, juggling and wire walking, modern acrobatics shows have become more diversified with the development of modern technology.

During the show audiences are often filled with apprehension and awe at the strength, confidence and courage of the acrobats. While after the show, the performers are much admired and respected.

FAQ

1. How long will I stay at the Forbidden City?

Re: You will spend about 2.5 hours in the Forbidden City. Your guide will take you to discover the rarely visited places.

2. Why is palace called the Forbidden City?

Re: In ancient times, royal palaces are forbidden places for ordinary subjects. Anyone going nearby the palace without official request will be punished. Nowadays, the official name is Palace Museum.

3. What is so special about the Forbidden City?

Re: Forbidden City used to be the residential place for Ming and Qing Dynasty emperors and their families. It's one of the most significant imperial palaces in China and also one of the best-preserved palaces in the world.

4. How many rooms are there in the Forbidden City?

Re: Forbidden City has about 9999.5 rooms. There are three reasons for this.

Reason 1: It's said that the Emperor Zhu Yuanzhang had built a palace with 10,000 rooms in Nanjing city. After Emperor Zhu Di relocated the capital city in Beijing, he believed that his father had done much more than he did. Thus, he built 9999.5 rooms to honored his father.

Reason 2: Ancient Chinese people believed that only the heavenly god can live in a palace with 10000 rooms. The emperor (heavenly god's son) can't surpass his heavenly father.

Reason 3: According to I Ching, everything should not be full. If something is too full or reaches its prime, the next step will be to decline, which is bad for a dynasty.

5. Is the Forbidden City the largest palace in the world?

Re: We all know that the Forbidden City is the largest palace complex in the world. However, when it comes to the single palace building, the largest one is Versailles in Paris, France. It's 1.11 million sq meters, about 400,000 sq meters bigger than the Forbidden City.

6. Why there are no trees in the Hall of Supreme Harmony, the Hall of Central Harmony, and the Hall of Preserving Harmony?

Re: These three halls were the most important sites for Emperors to attend state affairs or ceremonial events. To stress the majestic atmosphere, there were no trees planted in yards linking the entrance of the Gate of Heavenly Peace to the Gate of Supreme Harmony. When ministers went to court every morning, they would have to walk a long way through various buildings, which was very stressful so that when they arrived at the Towering Hall, they would be under the highest mental stress. In precisely this way, the supremacy of Imperial power was presented. If there were trees outside the halls, the majestic mood would be affected. There is another explanation: no assassins would find cover.

7. Who designed the Forbidden City?

The designer of this magnificent palace complex remains a mystery. There are many records left on the buildings stating who had done such an amazing job. There have been many guesses, but the most reliable quote came from superior engineer Yu Zhaoyun, who believed it was a unknown

designer, Cai Xin.

8. Why there are so many Dragons in the Forbidden City?

You may wonder why there are countless dragon carvings in this grand palace. In feudal society, Emperors were referred to as ‘The true son of heaven (dragon), the ultimate ruler of the earth’. That’s why dragon carvings are so common inside the palace, on the Imperial seals, or even daily necessities like cups or clothing.

9. Is the Forbidden City open everyday?

Re: No, the Forbidden City is closed on Mondays.

10. How long is the Great Wall?

Re: The Ming Dynasty Great Wall is about 8,851 km and the Qin and Han Dynasty Great Wall is more than 10,000km, all together making the Great Wall over 20,000km.

11. Is it possible to walk the entire Mutianyu Great Wall?

Re: Mutianyu Great Wall is 5400m long, a distance many people can conquer. However, considering the time shortage of your travel, we suggest you take the cable car to get on and get down riding a toboggan car.

12. How long is the cooking class?
